ABOUT THE PROJECT

The Youth Exchange '*Thinking out of the box*' is aimed to bring 39 young people together from 6 countries in an intercultural environment, where they can develop their basic skills on tolerance, acceptance of diversity and others, to learn how to fight against stereotypes and prejudices.

With these topics we would like to improve the sensibility of the youngsters and show them a way how they can be more open-minded in their life toward others.

The activities are going to be prepared by the youngsters involved in the project and at the end of the program they will create a video with their messages and hold a workshop in a local Afternoon School.
